## REPAIR SERVICE

The importance of obtaining the utmost possible use of your machine with least expense is a matter which has received our careful attention, and a most efficient and up-to-date Service Department is at your disposal. All repairs are carried out by experts; your difficulties, should they arise, are attended to by specialists.

There is no economy in fitting cheap, imitation parts; we accept no responsibility whatever for breakage and consequential damage resulting from the use of parts other than those manufactured or supplied by ourselves. Always obtain your spares from the appointed FRANCIS-BARNETT dealer in your district, or from us.

**REPAIR SERVICE.**—It will be the wish of the owner to have all repairs and adjustments on his machine carried out efficiently to ensure the utmost reliability. Machines sent to us are repaired by experts who specialise in repair work. All repairs are carried out under the terms of the Guarantee set out at the end of this book—see concluding paragraph headed "Repairs."

**ROTARY EXCHANGE SCHEME.**—The importance of having your cylinder rebored accurately when the need arises, cannot be over-emphasized. Every cylinder sent here is re-ground to standard oversize limits, and no variation from this standard is permitted. A special exchange scheme is offered in connection with this, and also with the servicing of crankshaft assemblies, brake shoes and clutch sprockets and plates. Prices are as follows:—

	<b>Cruiser 84</b>	<b>Plover 86</b>	<b>Falcon 87</b>
	£ s. d.	£ s. d.	£ s. d.
Engine assembly complete ...	40 0 0	27 0 0	40 0 0

Twin Seat ...	4 5 0	—	4 5 0
Flywheel Generator complete	—	6 6 3	—

## ESTIMATES

If required, we are always prepared to give an estimate before proceeding with any repair. This entails a certain amount of labour in dismantling to ascertain what new parts will be required, and therefore, in the event of any estimate not being accepted, a small charge is made for our mechanic's time in taking down the parts for inspection.

Estimates must be treated as approximate only. We reserve the right to fit additional parts where these are necessary, on further examination or test, to make the repairs satisfactory.

We do not undertake to fit to machines sent to us for overhaul, any parts specified by the customer, when we consider that other parts are necessary to make an efficient repair. In such cases, we are prepared to supply the requirements of the customer in spares, but we do not undertake to fit them.

## ORDERING SPARES

PROCEDURE.—We can supply **all spares**, except tyres and tubes. When ordering, please note carefully the following points :—

Always state **part number** and description as given in Spares List.

Always quote the **complete frame number** of your machine. This is stamped on the left-hand side of the steering head.

If engine parts are required, state the **engine number** in addition. This is stamped either on the crankcase halves at the front.

If possible, send the old parts as a pattern, and attach securely your name and address. Post full instructions under **separate cover**. Such **old parts will not be returned unless specifically requested** by the owner at the time of sending.

PLEASE PRINT NAME AND ADDRESS ON ALL CORRESPONDENCE WITH THE SERVICE DEPARTMENT.

REMITTANCE.—Repairs and spares are always treated on a cash basis. Unless otherwise instructed, spares will be sent by C.O.D. post, weight permitting, when the remittance does not accompany order.

If desired, a pro-forma invoice will be sent, showing the full cost of the order. Spares will then be forwarded on receipt of remittance.

All invoices will be surcharged by 5%, minimum 1/-, to cover packing and postage or carriage.

When making remittances by telegraph money order, the name and address of the sender *must* be included in the space provided on the Post Office requisition form for a private message from remitter to payee. Unless this is done, the Post Office does not give us this information.

Always quote our **invoice number** in correspondence which relates to past spares or repairs.

DEPOSIT ACCOUNT.—Where it is preferred, we will open a Deposit Account if an amount of not less than £2 is sent to us. The arrangement will ensure prompt service and dispense with the C.O.D. system. In such circumstances, "**Deposit Account**" should be mentioned each time spares are ordered.

All our machines are sold through appointed Dealers, each of whom keeps at least a minimum stock of the spares most likely to be needed. We therefore strongly urge owners in their own interests to obtain their spares requirements from local supplies; should a Dealer be out of stock, we will execute an urgent order from him per return, always provided stocks are available at the Factory. We are always pleased to put a Francis-Barnett owner into touch with his nearest F-B Dealer(s).

In the event of difficulty we shall be pleased to supply direct against cash with order or by C.O.D. post.

## SPARES LIST

Cuando se piden piezas de recambio basta mencionar el numero completo del motor y los numeros de las piezas de repuesta que se necesitan.

Naar reserveorde ordres er det tilstraek keligt at anfore det komplette nummer af motoren og nummeret af de onskede reserveorde.

Lors d'une commande de pieces detachees, il suffit de mentionner le numero complet du moteur et les numeros des pieces detachees requises.

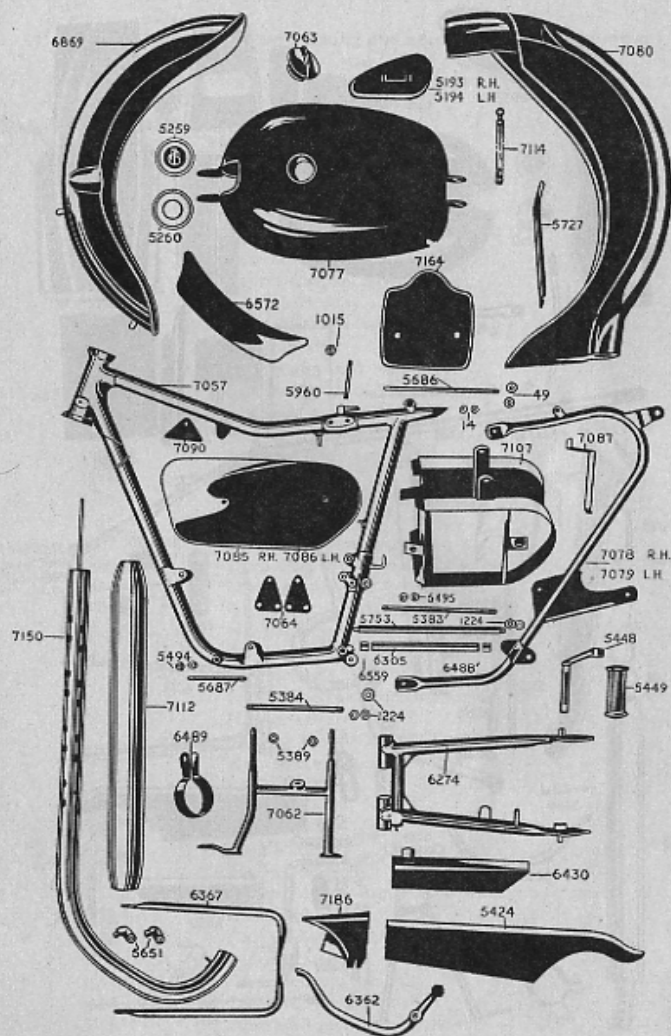

Bij de bestelling van motoronderdelen behoort het nummer van de motor en het onderdeelnummer aan te geven.

Bei der Bestellung von Ersatzteilen genügt es Motornummer und Nummern der gewünschten Ersatzteil anzugeben.

Always quote the frame number and prefix of your machine when ordering spares. This is to be found stamped on the **left hand side of the steering head**. The engine number, for use when ordering engine spares, is situated on the **front crankcase lug**, immediately below the cylinder joint.

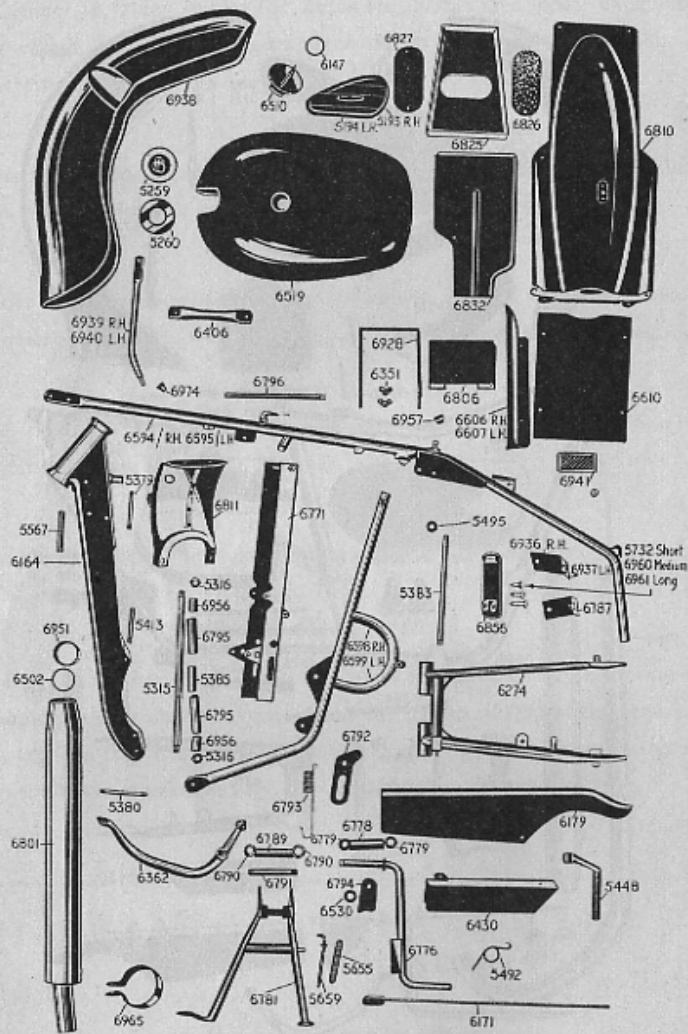

### SERVICE DEPARTMENT REPAIRS AND SPARES

## GUARANTEE AND TERMS OF BUSINESS

### NOTICE

Machines are delivered Carriage Paid to nearest Railway Station in Great Britain

We do not appoint agents for the sale on our behalf of our motor cycles or other goods, but we assign to motor cycle dealers areas in which we supply to such dealers exclusively for re-sale in such areas. No such Dealer is authorised to transact any business, give any warranty, make any representation or incur any liability on our behalf.

### CONDITIONS OF SALE AND GUARANTEE

We give the following guarantee with our motor cycles, including all accessories and component parts other than tyres, saddles, chains and lighting and electrical equipment and other than accessories and component parts supplied to the order of the Purchaser and differing from those comprised in the standard specifications. This guarantee is given in place of any implied conditions or warranties or any liabilities whatsoever statutory or otherwise; no guarantee except that hereinafter contained and no condition or warranty whatsoever statutory or otherwise is given or is to be implied, nor are we to be under any liability whatsoever except under the guarantee hereinafter contained.

We guarantee, subject to the conditions mentioned below, that all precautions which are usual and reasonable have been taken by us to secure excellence of materials and workmanship, but this guarantee is to extend and be in force for six months only from date of purchase, or date of exchange in case of any accessory or part supplied by way of exchange as hereinafter provided, and damages for which we make ourselves responsible under this guarantee are limited to the free repair of or supply of a new part or accessory in exchange for the part of the motor cycle or accessory which may have proved defective. We undertake subject to the conditions mentioned below to make good in manner aforesaid any part or accessory covered by this guarantee which has proved defective within the said period of six months. We do not undertake to replace or refix, or bear the cost of replacing or refixing any such new part or accessory in the motor-cycle.

As motor cycles are easily liable to derangement by neglect or misuse, this guarantee does not apply to defects caused by wear and tear, misuse or neglect.

The term "misuse" shall include amongst others the following act:—

The use of a motor cycle or of a motor cycle and sidecar combined, when carrying more persons or a greater weight than that for which the machine was designed by the manufacturers.

We do not guarantee tyres, saddles, chains or lighting and electrical equipment, or any accessories or component parts supplied to the order of the Purchaser differing from those comprised in the standard specifications. As regards all such tyres, saddles, chains, lighting and electrical equipment, accessories and component parts, no guarantee, condition or warranty of any kind statutory or otherwise is given or is to be implied, and we are to be under no liability whatsoever in respect thereof.

### CONDITIONS OF GUARANTEE

If a defective part or accessory should be found in our motor cycles, or in any part or accessory supplied by way of exchange as before provided, it must be sent to us CARRIAGE PAID, and accompanied by an intimation from the owner that he desires to have it repaired or exchanged free of charge under our guarantee and he must also furnish us at the same time with the number of the machine, the date of the purchase or the date when the alleged defective part or accessory was exchanged as the case may be.

Failing compliance with the above, such articles will lie here at THE RISK OF THE OWNER and this guarantee and any implied guarantee warranty or condition shall not be enforced.

We reserve the right to alter specifications and/or prices without notice.

### REPAIRS

Any motor cycle, sent to us to be plated, enamelled or repaired will be repaired upon the following conditions, i.e., we guarantee that all precautions which are usual and reasonable have been taken by us to secure excellence of materials and workmanship, such guarantee to extend and be in force for three months only from the time such work shall have been executed, and this guarantee is in lieu and in exclusion of all conditions and warranties statutory or otherwise and all liabilities whatsoever and the damages recoverable are limited to the cost of any further work which may be necessary to amend and make good the work found to be defective.
